**FEATURES**

- Overmolded PFC with a modular structure.
- Good thermal conductivity through high thermal conductivity plastic.
- Fixation to PCB by faston connexions.
- Fixation between modules (puzzle basics) by plastic fasteners.
- Weight: approx 52 grams.

**OPERATION**

- Up to 16A (RMS or DC).
- Total losses < 16W @100°C/16Arms.
- Cooling of the windings is needed.

**APPLICATIONS**

- PFC Stage for OBC.
